

Z-FLEX®

Available in sizes
up to 24"
single and double wall

SPECIAL GAS VENT FOR
CATEGORY I, II, III, IV HEATING EQUIPMENT

Z-Vent®

Designed for use with
boilers, high efficiency
furnaces, pool heaters,
unit heaters and tankless
water heaters.

UL US LISTED

Z-Vent[®] is manufactured using UNS S44735 (i.e. AL29-4C^{®*}) superferritic stainless steel** with unmatched corrosion resistance for use with condensing furnaces and boilers. Z-Vent[®] was developed in the early 1980's and has thousands of field installations to date. Z-Vent[®] is manufactured utilizing a fail-safe gasket connection. No sealant required. The lengths of pipe may be cut on non-expanded end using aviation snips or a hacksaw (24tpi). The cut end must be filed or sanded smooth before joining.

Features:

- Gasketed connections
- Fusion welded pipe seams
- Metallic special gas vent that can be cut to length on site
- 1" clearance to combustibles

Benefits:

- No sealant required. Immediate start up, no call backs
- Provides an air-tight seam, smooth finish and a better fit
- Being able to cut the product in the field will save you time and money. Pipe available from 6" through 10' lengths
- Can be installed with minimum clearance to combustibles

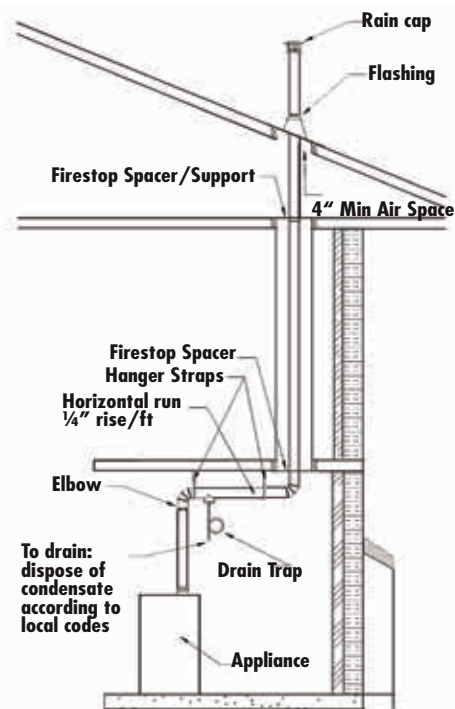

Appliance connectors available for most equipment. Please refer to Z-Vent Appliance Adaptors
